Detailed description of products : Annex

The products mentioned in annex are the object by the manufacturer of a factory production control and tests carried out on samples taken in the place of manufacture in accordance with a pre-established test plan.

AFNOR Certification carried out tests of the initial type on the products, the initial inspection of the site of production and the control of production in factory and carries out a continuous surveillance, evaluation and an acceptance of the control of production in factory.

This certificate attests that provisions concerning the attestation of conformity described in annex ZA of the standard(s), below stated, were applied and that the products fulfill all the requirements demands.

It will allow the manufacturer or his agent operating within the EEA to apply EC marking

Fire detection and fire alarm systems
