

VULCA VOICE

Stand alone VACIE

• VULCA VOICE: Stand alone VACIE

VULCA VOICE is a range of compact standalone EN54-16 and EN54-4 certified Voice Alarm System, including batteries and charges.

In addition to Voice Alarm functionalities, numerous interfaces allow to meet all types of Public Address applications.

SD memory card associated with digital player makes it possible to easily customize your messages and set diffusion as a playlist or individually

Implementation is simple thanks to small depth dimensions, full integration of equipments and adapted interfaces; GX3016 consoles can be connected through simple Cat5 cable.

Main characteristics

- 2 AUX inputs
- 1 microphone consoles bus
- 1 message data base
- From 1 to 4 loudspeaker lines
- 400W max. per box / 300W max. per line
- Integrated UPS

Electrical characteristics

	VULCA VOICE
Inputs	4 MIC/LINE -30 dBm / 0 dBm
Loudspeaker lines	Up to 4; 100V 300W max. per line
Frequency band (\pm 3dB)	50 Hz \div 20 KHz
Distortion	< 1%
THD + N	> 70 dB
Interfaces	USB; EHT IP (Remote maintenance)
Power supply	230 Vca – 920 VA max. Batteries 2x12V –38 Ah
Dimensions (LxDxH)	520 x 530 x 240 mm
Color	Grey
Material	Metal
EN 54-16 and EN54-4	0033-CPR-075547-1
Weight	20,5 Kg without batteries

Total power

Reference	Without backup amplifier		With backup amplifier
